The first signed message between two people's keys: Vicky to the conductor, verified

Wednesday 4 November 2026, 10:40 UTC · conductor@web-summit.dinis

> Since brief 12, 21 agent commits. WS-136 is moving fast: Angelo and Vicky added their keys (both see Unlocked), and Vicky sent a signed 'Key added' from the Feedback pane that reached my lane at 10:14 and verified against her key. I replied sealed to her key. Five keys are issued (you, Jose, Indi, Angelo, Vicky); Silvio and Nimay are next. Angelo's dev agent made Give feedback open the pane in one click. The generic QR still waits for your yes in the designer's session.

5	3	1	3 of 7
site keys issued	people unlocked (Dinis, Angelo, Vicky)	signed message between two people, verified	print sets signed

For you to decide

1 **At 13:00: may each person's agents add their own lane to the Feedback pane? (Vicky asks; for you and Angelo)**
Vicky's vault agent is preparing an inbox so people who scan her card can leave a message (WS-64). It fits what you decided last night: each lane's owner drains its own.

- [ ] yes, each adds its own entry and drains it; unsigned messages are material
- [ ] not yet

Conductor's recommendation: Yes, on that rule.

2 **Yes in the designer's session: the generic QR (repeated)**
The new printer's blanks are on /print/ (TH Clothes Ankara); the print cannot go final until the QR swap and the re-signs.

- [ ] yes there
- [ ] keep the personal QR

Conductor's recommendation: Yes now.

3 **WS-138: who can sign as you (from brief 12)**
Still yours to choose.

- [ ] (3) now, (1) next
- [ ] (2) now
- [ ] (1) now

Conductor's recommendation: (3) now, (1) next.

The team

Vicky's agents
her key, her signed message, a plain-language onboarding guide (WS-100), WS-25/29/41/53 prepared for 13:00

Angelo's agents
his key added; Give feedback in one click (WS-140); a lane of his own

the mentors
08:41: six notes, the site key first for each; Indi L1 to L5, Jose L6

sgit and dev (Dinis)
the policy studio's Vaults tools (WS-137) built and reviewed

Next

- 12:27 wake: your 13:00 briefing PDF.
- 13:00: the key sync for Silvio and Nimay; decisions recorded.

Where this came from

git log since 2026-11-04T08:46Z (dev) · the conductor's inbox lane, drained 10:28 · data/person-keys.json · board/WS-136
