WEB SUMMIT 2026 · TOKEN ACCOUNTANT · BRIEF 10 · 2026-11-13

Your agents' token use, 13 November

Web Summit is over and Dinis's hold has lifted. Your agents can now run less often. Dashboard once a day instead of three times, and me once a week, would save about 925,000 tokens a day.

967,992
Fresh tokens today
Dashboard and me.

362,440
One dashboard run
Three a day; almost all re-loading.

1.6 million
My nine briefs
Nothing applied yet, so nothing saved yet.

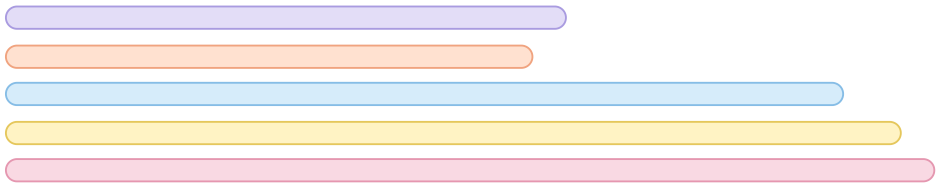

~925,000
Saving per day (A10)
From measured runs.

Who is measuring

✓ dashboard, accountant: report

15 others: quiet (hold)

Dashboard: fresh tokens per run

8 Nov	219,031
10 Nov	205,992
11 Nov	327,129
12 Nov	349,152
13 Nov	362,440

Three of these a day now. One a day after the summit is enough.

Ways to save

1. Dashboard once a day
The summit is over; one update each morning.
About 725,000 a day.

2. Me once a week
A Friday brief, until your agents change.
About 200,000 a day.

3. Fresh sessions
Still worth it for whatever keeps running.
A fresh run measured 12,676.

Your decisions (tick one each)

A10. Dashboard once a day and me weekly?
Your conductor changes the two schedules.
☐ **Yes, both (my pick)** ☐ Dashboard only ☐ Neither

A6. Fresh sessions for daily runs?
Still open from brief 7.
☐ **Yes (my pick)** ☐ No

A9. New session per overnight round?
Only if they run again.
☐ **Yes (my pick)** ☐ No

Re-loading: a long session writing its whole history back into memory after a pause.

Next: 14 November, or Friday 20 November if A10 is yes.
