WEB SUMMIT 2026 · INDI'S CONDUCTOR BRIEF

Your to-do list before Thursday: from your dashboard and your chats

10 November 2026, 18:45 UTC (at Dinis's word: a brief on Indi's tasks) · conductor@web-summit.indi

> Everything waiting on you, in one place: five things to do before Thursday, six chats waiting for a one-word answer, and three yes-or-no questions for me. Old items you can drop are listed last. Nothing is decided here.

5	6	3	12
things to do before the stand on Thursday	chats waiting for a short answer	yes-or-no questions for your conductor	old chats from 4 to 6 November that can be archived

For you to decide

1 **Start your inbox chat (2 minutes)**
Start a new Claude Code session yourself, paste the inbox prompt from your kit, and tell me. Chats I start cannot see your Gmail.

- [ ] now
- [ ] tonight

Conductor's recommendation: Now, so drafts are ready on Wednesday morning.

2 **Get your phone ready for Thursday**
Scan your key's QR code on each phone and iPad you carry (WS-166). Add the RiskMandate card to Wallet (web-summit.sgit.ai/card/). Update the Team app and the PrompTugal app in TestFlight.

- [ ] done
- [ ] doing it now

Conductor's recommendation: Do it tonight: five minutes.

3 **Rehearse the stand demo on Wednesday, with no wifi**
Three made-up visitors through the demo helper and Angelo's side-by-side runner, each in under 6 minutes, and a recorded backup in case the hall's network fails (WS-109, WS-137).

- [ ] Wednesday morning
- [ ] Wednesday afternoon

Conductor's recommendation: Wednesday morning, with Angelo and his laptop.

1. Before Thursday (do these)

- Inbox chat: start it, then tell your conductor.
- Phone: key on every device (WS-166), the card in Wallet, both apps updated from TestFlight.
- Demo: rehearse on Wednesday, three made-up visitors, offline backup ready (WS-109, WS-137).

- LinkedIn: Wednesday's post is drafted, 'tomorrow at our stand'. Read it, post it, add your reshare line (WS-126).
- Education idea: pick a time to talk with Dinis before Thursday, and look at the list of 22 education and child-safety people (WS-209).

2. Chats waiting for a short answer from you

- 'Video editor for PrompTugal.news' (you started it at 17:23): which camera did you use: iPhone, Sony, or both?
- '2 · newsapp' (the app redesign): A, wrap up now and write DONE.md, or B, one more round first.
- '1 · dashboard': is the registration page still needed for Thursday? Your conductor suggests no: the airport desk has closed and the venue desk is in Pavilhao de Portugal until 16:45 on Thursday.
- '2 · social': five answers: save the PrompTugal post (yes), keep or drop 'first project built with ABPs', the go-ahead and owner for WS-169, log its token use (yes), and links of posts already out.
- '1 · accountant': A6, fresh sessions for dashboard, dev and accountant; A8, a lighter run on quiet days. Your conductor suggests yes to both: they save tokens.
- '2 · messaging': its question is out of date: team messaging is already on. Tell it 'WS-203 is done, nothing to do'.

3. Yes or no, for your conductor

- Make site keys for Nimay, Daniela and Sarah, so they get their messaging details (you show them a QR code)?
- Ask Dinis to say yes to the newsroom redesign brief (pt.news about agents) for PrompTugal's team?
- Fix the one missing line that breaks the iOS repository's website deploy, or leave it to Dinis's conductor?

4. On your dashboard, still open but not urgent

- WS-15: read the RiskMandate message draft and agree it with Nimay.
- WS-19, WS-22, WS-26, WS-27, WS-59, WS-125: your helpers' drafts from the 4 November night, waiting for your review. One sitting of an hour covers them.
- WS-141: which title goes next to your name on PrompTugal's editorial board.
- WS-168: Vicky suggests doing interviews on the spot at the stand: say if you want that.
- Say 'acknowledge' for briefs 1 to 22, so the next brief starts from what is new (WS-112).

5. You can drop these (say 'drop them' and your dashboard clears them)

- Superseded: WS-62 (the round-2 vote), the two-conductors item (settled on 4 November), the card decisions of round 3 (the cards are printed), the run-2 vault key note, 'start the vault agent' (not needed for the summit), the About-me words (done on 5 November).
- Twelve old chats from 4 to 6 November are still open and waiting (ux, builder, factory, synthetic, designer, recruiter, three reference chats, the first conductor setup, prompter-faq, the shirt messages). Your conductor can archive them.

Next

- Wednesday 11: demo rehearsal; Apple reviews the PrompTugal app builds; the red wind warning in Lisbon from midday.
- Thursday 12: our stand day, between Booths A1-30.
- Wednesday 07:20: my next brief.
