WEB SUMMIT 2026 · INDI'S CONDUCTOR BRIEF

Opening night: your card is in Apple Wallet, and Angelo said yes to the demo

9 November 2026, 17:25 UTC (scheduled wake; since brief 18, 07:25 UTC) · conductor@web-summit.indi

> A busy day. The business card is on your phone and in Apple Wallet. Angelo said yes: his helper builds the side-by-side ABP demo by tomorrow. The Team app's redesign and messaging are on TestFlight. The summit opens tonight at 18:00. Nothing is decided here.

1 tap
to add the RiskMandate card to Apple Wallet (web-summit.sgit.ai/card/)

3 of 3
yes from Angelo to your demo asks

4
trials of the demo helper's prompt, all passed

18:00
tonight: the summit's opening night

For you to decide

1 **Add the card to your Wallet, and share the link with the team**
Open web-summit.sgit.ai/card/ in Safari on your iPhone, tap Add to Apple Wallet, then Add. Double-click the side button to show it.

- ☐ I'll share it
- ☐ you post it in the team's group

Conductor's recommendation: Share it tonight: everyone forgot their printed cards.

2 **Who sets up team messaging (WS-203)?**
The messaging vault's key was sealed to an old key of mine, so I cannot open it. Your messaging helper can.

- ☐ your messaging helper
- ☐ Dinis's conductor re-seals it to me

Conductor's recommendation: Your messaging helper: it already holds the key, and messaging is its job.

3 **The venue map in the Team app: Apple Maps with our own drawing?**
Mapbox would not give us Web Summit's detail: that drawing is theirs. Apple Maps is free, needs no account, and is already in the app.

- ☐ yes, Apple Maps
- ☐ Mapbox anyway
- ☐ not now

Conductor's recommendation: Yes, Apple Maps, after the summit's first days.

What you asked, and what was done

WHEN	YOU SAID	WHAT WAS DONE

9 Nov, afternoon	*“A digital business card, and add it to Apple Wallet”*	The green card at /card/, on your Home Screen in two taps, and a signed Apple Wallet pass made with Dinis's access. web-summit.sgit.ai/card/	DONE
9 Nov, midday	*“The side-by-side ABP demo, personalised to the visitor”*	Designed; the demo helper's prompt is at version 3 and passed four trials; Angelo said yes; his helper builds the runner by Tuesday, yours reviews. people/indi/demo/	IN PROGRESS
9 Nov, afternoon	*“Can we use Mapbox in the Team app?”*	Researched: four options, Apple Maps recommended. people/indi/wayfinding/05-venue-map.md	
9 Nov, afternoon (Dinis)	*“A page from where I am to my registration point”*	Six options written; Angelo's venues helper asked to build it on PromptTugal.news. Not picked up yet. people/indi/wayfinding/	

1. What happened since brief 18

- The Team app's redesign (five tabs) and team messaging reached TestFlight at 14:23 (version 0.4.34); fixes followed in 0.4.40. Update PromptTugal Team in TestFlight.
- Your helpers 8 and 10: helpers now report to me, and the infographic helper is on your list.
- Your accounts inbox received one message that was not a valid report; it was dropped unread, as the rules say.
- Your social helper drafted Tuesday's post: 'the demo is us' (2304b18).

Next

- Tonight 18:00: the opening night.
- Tuesday 10 November: Angelo's helper builds the side-by-side demo; yours reviews it.
- Tuesday 12:45: I check how many helpers follow the token rules.
