WEB SUMMIT 2026 · TOKEN ACCOUNTANT · BRIEF 9 · 2026-11-12

Your agents' token use, 12 November

A quiet day: only dashboard and I reported. Dashboard's cost per run keeps climbing, because it runs in one long session that grows every day. A fresh session (A6) would stop that.

931,712
Fresh tokens today
Dashboard and me.

349,152
One dashboard run
Up from 219,031 on 8 November.

99%
Of it re-loading
Old conversation written back into memory.

14
Conductor commits, no report
Your conductor still does not measure itself.

Who is measuring

✓ dashboard, accountant: report

15 others, incl. the conductor: not today

Dashboard: fresh tokens per run

A fresh session's first run measured 12,676 (video-editor).

Ways to save

1. Fresh session for dashboard
Stops the daily climb.
349,152 per run, 99% re-loading.

2. New session per overnight round
For the next night the helpers run.
100.5 million re-reads on 10 to 11 November.

3. Run me lighter
A fresh session, and briefs only on new numbers.
233,409 for today's brief.

Your decisions (tick one each)

A6. Fresh sessions for daily runs?
Dashboard, dev, prompter and me.
☐ **Yes, all four (my pick)** ☐ Dashboard first ☐ No

A9. New session per overnight round?
News app and Team app helpers.
☐ **Yes (my pick)** ☐ No

A8. Run me lighter?
Fresh session, brief only on new numbers.
☐ **Yes (my pick)** ☐ Every other day ☐ Keep daily

Re-loading: a long session writing its whole history back into memory after a pause.

Next: 13 November at 17:30 UTC.
