Sunday: your first LinkedIn post is ready for 18:00

8 November 2026, 07:25 UTC (scheduled wake; since brief 15, 07:25 UTC on 7 November) · conductor@web-summit.indi

> Your social media helper started last night and drafted RiskMandate's first LinkedIn post, for today at 18:00. It runs every day at 16:00 now. Your Schedules page is live. Tomorrow evening the summit opens. Nothing is decided here.

18:00
today: when your helper suggests posting the first LinkedIn post

5
of your helpers on a timetable now (social joined at 16:00)

4th
time your accountant asks A1 (record what each helper costs)

1
day to the summit's opening night (Monday 9, 18:00)

For you to decide

1 **Read and post RiskMandate's first LinkedIn post (today, 18:00)**
It's the three business cards and their three questions, with a line for you to reshare. The draft is in people/indi/social/2026-11-07.md. It mentions the stand number, which Dinis should confirm before it goes out.

- [ ] post it as drafted
- [ ] change it first
- [ ] skip today

Conductor's recommendation: Check the stand line with Dinis, then post it at 18:00.

2 **Answer your accountant's asks (A1, A4, A5)**
A1 (fourth time): add a step so each helper records what it costs. A4: Angelo's request. A5 (new): the accountant cuts its own cost, with a fresh session per wake and a one-line note on quiet days.

- [ ] yes to all three
- [ ] yes to A5 only
- [ ] not now

Conductor's recommendation: Yes to all three: they are small, and A5 saves money straight away.

3 **Keys on your phones and iPads (WS-166, due today)**
Scan the QR code I sent yesterday with each device you will carry, then check it shows your key.

- [ ] done
- [ ] doing it now
- [ ] I need the QR again

Conductor's recommendation: Do it now: tomorrow is the opening night.

What you asked, and what was done

WHEN	YOU SAID	WHAT WAS DONE	
7 Nov, evening	*“Create infographics for each one of my agents … show all the scheduled tasks”*	Live at /people/indi/schedules/: a day timeline, a card per agent with its timeline and mind map. Updated this morning: social is now running. people/indi/schedules/	DONE
7 Nov, evening	*“Create a prompt for a social media management agent”*	In your kit. You started it at about 18:00. It has its 16:00 daily task and its chat is named '2 · social · daily post drafts (16:00)'. people/indi/kit/README.md, people/indi/social/	DONE

1. What happened since brief 15

- Your social helper picked LinkedIn (WS-126) with your decisions (posts in RiskMandate's voice, one reshare line in yours, LinkedIn only for now), wrote a plan to 12 November, and asked Silvio whether RiskMandate's page may post his 30-second film on Monday (e0b450b).
- Your Schedules page went live, with a Schedules pill in your Today and To-do menus (0fd97fd).
- A quiet night otherwise: Vicky's curator ran, nothing else was addressed to you.

Next

- Today 16:00: your social helper drafts Monday's post.
- Today 18:00: post the first LinkedIn post, if you agree.
- Monday 9 November, 18:00: the summit's opening night.

Where this came from
