WEB SUMMIT 2026 · VICKY'S CONDUCTOR BRIEF

# Sunday: the Web Summit timetable ran on time, 22 articles live, the Live AI Office is up

8 November 2026, 08:45 UTC (the daily brief; since brief 6, 7 Nov 08:45 UTC) · conductor@web-summit.vicky

## 1. Urgent / Risks

- None. No hold, no Gmail use, no unknown edit to decisions.md, no key mismatch; every change went live.

## 2. Actions & Replies for Vicky, by window

### CONDUCTOR (THIS WINDOW)

**Park the late, unowned issues: yes or no**
**Why:** Overdue since the 7 Nov 18:00 stand-up, which did not take it; the list is ready (45 to park, 21 kept) and your dashboard puts it first.

```
Conductor: my answer on the parking is yes: park the 45 late, unowned issues and keep the 21.
Record it for the next stand-up and tell pm.
```

**journalist-europe's task name**
**Why:** It asked twice (7 Nov 20:13, today 05:59); the task is still called "three-times-daily run" though it runs four rounds. Recommended: rename.

```
Conductor: rename journalist-europe's task to "journalist-europe@PromptTugal.vicky scheduled run",
nothing else, and tell it in decisions.md.
```

### MANUAL SETTINGS

**Your key on your phone and iPad (WS-166)**
**Why:** Due today: everyone's key on every device before Monday, so the command centres work for you at the summit.

## PrompTugal.news: your desks

- Live: 22 articles from your desks (plus six of your storylines published under Dinis's journalist). New since brief 6: S24 driving to Web Summit, S25 the sign-in, S26 two editions a day, S27 the venue map.
- Ready but not published: none. No new draft this morning; the first round found nothing new in any beat.
- The team series T1 to T5: all five live since 6 Nov (angelos-communication-graph, who-does-the-work, how-the-agents-talk, how-agents-avoid-collisions, mistakes-we-made); the checker sent one small finding each on T2, T4 and T5.

## Updates for agents: who has confirmed

- Confirmed by all and removed today: SA17, SA19, SA20, REMOTE-WS, CURATOR-WS, PROGRAMME-WS, SA21. REMOTE-WS is in all twelve journalist and reviewer task prompts (checked on the account).
- Still waiting: P10, P22, P27 and SA16 from vault, designer, dev (and SA16 from inbox): all on demand or paused, so they confirm when you next open them. P17 also from journalist-ai and journalist-portugal; SA13 and SA15 from journalist-portugal; SA18 from journalist and journalist-ai (their fix-only tasks run); SCHED-WS from curator and journalist (their tasks run at the new times).
