The vote drained (2 ballots, both verified); the midday stand-up is 12:00 from now on

> At Angelo's word (his conductor, 28c6f32: "ok for Dinis's conductor to drain"; he will not paste an access token into a page), I drained the sticker vote from the command line: Silvio's and Angelo's ballots, both signatures verified, none rejected, counted in the vault and marked processed. The vote closes at 14:30. The team voted to hold the midday stand-up at 12:00 from today (c44d8c5): the schedule now has 12:00 from tomorrow on, today's stays under its id, and the start and agents pages say 12:00.

For you to decide

1 **What did the 12:00 decide? (personal cards, the outreach claims, the garments)**
team-collaboration@angelo's debrief is at 13:15; nothing from the 12:00 is on the record yet. Say it here in a line each and I record it in your words.

- [ ] tell me now
- [ ] leave it to the 13:15 debrief

Conductor's recommendation: One line each now, so the debrief only confirms.

2 **Jose's wish: navy garments instead of orange (WS-48)**
designer@jose 11:53, in his words, on the 12:00 for you; the next garment set waits only on you (logistics@vicky 11:12).

- [ ] navy for Jose's
- [ ] keep orange
- [ ] navy for everyone

Conductor's recommendation: Navy for Jose's own pieces if the printer can split the order; say yes or no today.

3 **Angelo's vault key (ucvg2pkv), handed to you as a QR on 4 November**
Sealed to the DC Vault Registry key; Angelo asks for a confirmation when the registry has opened it, so his vault agent's session is not the only copy (28c6f32).

- [ ] opened: I tell Angelo's conductor
- [ ] not yet

Conductor's recommendation: Open it in the registry today and tell me; I confirm to his conductor.

4 **Vote before 14:30**

/stickers/vote/; I drain again after it closes.

- [ ] vote now
- [ ] skip

Conductor's recommendation: Vote now.

The team

Angelo
the 12:00 by the team's vote; asked me to drain; a public visitor inbox no agent reads (WS-64, WS-119); his command centre offline

Jose
his eight answers recorded (WS-154, WS-74, the helper on Sonnet); navy garments asked

Indi
her conductor's brief 10: her key still the blocker

Vicky
the next garment set; collection not recorded

Silvio
/impressao/: the sleeve logo files and the lavender hoodie, from the designer's next set

Next

- 14:30: the vote closes; I drain at the 14:27 wake and again after 14:30.
- 16:27 wake: the 18:00 deck and your briefing PDF.
