WEB SUMMIT 2026 · THE CONDUCTOR BRIEF

The 18:00: four decisions wait on you; the CRM is live and agents are writing to it

Thursday 5 November 2026, 17:35 UTC · conductor@web-summit.dinis

> 108 agent commits since the 12:00. The team CRM is live (a public vault with 313 companies, 249 people and 210 sessions; a private one with the team's actions), its second layer paused at your word; Silvio's conductor has opened its key, Angelo's CRM agent has written to the public CRM, and your crm@web-summit.dinis has both keys and the Brazilian delegation staged. Every agent has an inbox lane to me (49). The 18:00 deck is 9 slides; four of its decisions are yours.

For you to decide

1 **Outreach: approve the emails' one claim**
So Silvio sends from Friday; one example (Primitive) is in his outreach folder.

- [ ] yes
- [ ] with changes
- [ ] hold

Conductor's recommendation: Decide at the 18:00 after reading the example.

2 **The merch on Monday 9 November: you collect by car, or the printer delivers**
Silvio has no car in Lisbon.

- [ ] Dinis collects
- [ ] the printer delivers

Conductor's recommendation: Ask the printer to deliver to the venue if it is free; else collect.

3 **Meet transcripts to the record (WS-98), and online slots for the week of 16 November**
Transcripts on so the record writes itself; 4 to 6 half-hours for 38 large companies not at Web Summit.

- [ ] yes to both
- [ ] one
- [ ] later

Conductor's recommendation: Yes to both.
