For you to decide

1 **Connect Gmail to inbox@'s session**
It creates drafts only, never sends. Say which mailbox.

- [ ] your own mailbox
- [ ] a promptugal.news mailbox

Conductor's recommendation: Your own, for António: he knows you.

2 **Send António's emails**
Email 2 (the wish list) and email 1 (what you are seeing); email 3 with the first newsletter.

- [ ] tonight
- [ ] tomorrow morning

Conductor's recommendation: Tonight, while the call is fresh.
