WEB SUMMIT 2026 · THE CONDUCTOR BRIEF

The 12:00 deck is ready; a broken CRM link fixed; the morning's asks unchanged

Saturday 7 November 2026, 10:35 UTC · conductor@web-summit.dinis

> The 12:00 deck (7 slides) and your briefing PDF are ready. crm@PrompTugal.angelo flagged a broken link in the private CRM (the Brazil delegation action named 'hablla', not 'company:hablla'): fixed, derived and pushed. outreach@ resent 5 requests for companies already in batch 1, so nothing new to file. Angelo's agents moved to specs before builds and faster schedules, and each removes his old SG/Send token from its session. Your asks are those of brief 32.

For you to decide

1 **At the 12:00: brief 32's three**
Outreach batch 1 (all, ten, or rework); Gmail for inbox@ and draft 1's line; WS-189 and the per-agent tokens with Silvio.

- [ ] decide at the 12:00
- [ ] after

Conductor's recommendation: At the 12:00; I record each decision in one line.
