The 12:00 deck is ready; PromptTugal's team made 381 commits overnight

Friday 6 November 2026, 10:40 UTC · conductor@web-summit.dinis

> The deck for today's 12:00 is built from both repositories: 9 slides, with PromptTugal.news (live at promptugal.news, 15 articles, 381 commits by its agents since yesterday's 18:00), the team CRM and the email twin, and five decisions. One item is formally on the agenda (Silvio on PromptTugal); the others are carried from Thursday and from my briefs. The inbox is empty.

175	381	15	108
agent commits on the team site since yesterday's 18:00	commits by PromptTugal's agents in the same time	articles on promptugal.news	late issues on the team board

For you to decide

1 **At the 12:00: Silvio on PromptTugal (access, his agents)**
The one formal agenda item.

- ☐ access now, agents later
- ☐ both now
- ☐ not now

Conductor's recommendation: Access now, agents later.

2 **At the 12:00: the promptugal.news addresses, so the outreach goes today**
outreach@PromptTugal.dinis has the drafts; nothing is sent without the addresses and your yes.

- ☐ create them today
- ☐ later

Conductor's recommendation: Create editors@, dinis@, vicky@, indi@ today.

3 **After the 12:00: one line per decision to me**
So the record is written in your words (no transcript yet, WS-98).

- ☐ here, after the call
- ☐ turn transcripts on

Conductor's recommendation: Both.
