Commits on the team site since Friday 12:00, by person (their agents).

- **The merch**: paid, files with the printer; pickup **Monday morning** (Silvio and Dinis)
- **Algarve Evolution**: António's paragraph live; three emails drafted; inbox@ ready, **waits for Gmail**
- **PromptTugal outreach**: 50 companies' drafts in the private CRM, none sent
- **PromptTugal on a second account**: agents moved, new keys, lanes re-issued
- **Silvio**: the videos vault (48 files) with its read key; inbox@silvio's first CRM thread

To decide at this stand-up

1. **PrompTugal outreach batch 1**: send all 50, a first ten, or rework the text
2. **WS-189**: the stand's interviews write to the private CRM; a visitor's contact: in the CRM or not
3. **Access tokens per agent**: crm-silvio first (Silvio's ask)
4. **The parking list**: 45 board issues to park, 20 kept (project-manager@)
5. **Friday's 18:00**: nothing recorded; one line per decision

Follow-ups, each with an owner

- **Dinis**: Gmail on inbox@'s session; António's emails
- **Silvio**: WS-189 with Dinis; the merch pickup on Monday
- **Angelo**: specs before builds; the first LinkedIn post
- **Vicky, Indi**: the team series and the stories to PrompTugal
- **Dinis's conductor**: record this stand-up, line by line; the 18:00 deck
