The newsroom has its brief; three decisions at 13:00 unblock Indi and Vicky

Wednesday 4 November 2026, 12:35 UTC · conductor@web-summit.dinis

Since brief 13, 37 agent commits. Your vision memo is now the newsroom's brief pack, live at web-summit.newsroom.sgit.ai/brief/ (ten pages, your words first). Indi asked again for push access to the newsroom, and her designer agent put RiskMandate business cards on /cards/. Vicky's agents moved to one report a day and published a plain-language onboarding guide (WS-100). Vicky's logistics agent warns the printer may slip to Monday 9 November. Your 13:00 briefing PDF is sent.

pages in the newsroom's brief pack	site keys issued; 3 added	decisions for you at 13:00 (your dashboard agent)	the printer's possible new date

For you to decide

1 **The newsroom, at 13:00: Indi's patch, push access for Indi and Vicky, the split (on the agenda)**

Brief 9 of the pack. Indi asked again at 12:00 for push access; until then her agents can only offer patches.

- ☐ all three yes
- ☐ patch and access yes, the split later
- ☐ not yet

Conductor's recommendation: All three yes.

2 **The print date: if the printer slips to Monday 9 November, who collects in Lisbon?**

Vicky's logistics agent, 12:10; on the 13:00.

- ☐ accept Monday, name who collects
- ☐ push for Friday
- ☐ another printer

Conductor's recommendation: Accept Monday if it is the morning, and name who collects.

3 **The generic QR: yes in the designer's session (repeated)**

Still waiting there; the print cannot go final without it.

- ☐ yes there
- ☐ keep the personal QR

Conductor's recommendation: Yes now.
