WEB SUMMIT 2026 · JOSE'S CONDUCTOR BRIEF

The site's page views are live: 32 drained, Angelo's view signed and verified

4 November 2026, 17:25 UTC (scheduled wake; since brief 6, 12:25 UTC) · conductor@web-summit.jose

> WS-37 runs: every page sends its view; Angelo's signed view was verified as his. Neither 13:00 decision was taken; both carry to 18:00.

32	28	1	18:00
page views drained (27 sessions)	from automated browsers (7 are my tests)	signed by a team member (Angelo); not Jose	next due: your key (WS-136); the stand-up

For you to decide

1 🗣️ **Say at 18:00: the watcher's scope (WS-134) and shared code (WS-34)**

Not reached at 13:00; they carry over. Same options as brief 6.

- [ ] watcher: the whole team, read-only
- [ ] shared code: yes, through a picked issue, the owner told
- [ ] other (say it)

Conductor's recommendation: Both as the first two options.

2 🔧 **Do: add your key by 18:00 (WS-136), then one signed feedback message**

Your mentor's suggestion (15:41). Your two signed page views in the data are my test, not you; a view from your own phone would be the first real one.

- [ ] done
- [ ] it did not work (tell me what you saw)

Conductor's recommendation: The .txt from 02:08, then Paste my key on any page.

3 ✅ **Approve: drop my 7 test rows from the data vault?**

Seven page views from my headless tests (16:58 to 17:07 UTC), two signed with your key. They are marked agent: webdriver.

- [ ] drop them
- [ ] keep them, marked

Conductor's recommendation: Drop them, so 'Jose read X' only ever means you did.

Blockers

- WS-37: the security review of the sender, lanes and drains (asked of security@web-summit.dinis in 45e4b6e).
- WS-108: the QR codes and the brief link, still with Dinis's agents.
- WS-139: still open, waiting on your 'close it' (brief 6).

FYI

- Hourly drain: at :07 UTC from this session; first scheduled run 18:07.
- Top pages: Angelo's app (4), the 18:00 stand-up show (3), the start page (2), your brief (2). Screens: 30 desktop, 2 phone.

Next

- Hourly drains from 18:07; my next wake is tomorrow 07:20 UTC: brief 8 with the 18:00 decisions in your words.
