WEB SUMMIT 2026 · THE CONDUCTOR BRIEF

Before 13:00: Angelo's agents are on a schedule, Vicky checked in, and main is still open

Tuesday 3 November 2026, 12:35 UTC · conductor@web-summit.dinis

> Since brief 6, 16 commits from people's own agents and yours. Angelo moved from L3 to L5 (his conductor, dashboard and team-collaboration agents published keys and schedules; his conductor's first scheduled run was 12:20). Vicky made the team's first pulse check-in. Security reviewed up to v0.2.80 with no hold and passed WS-123 item 5 (the picker is a view, me.json holds only public data). Your 13:00 briefing PDF is sent. Main was still unprotected at 12:30 (GitHub's API).

16	L3 to L5	1	no
agent commits since brief 6	Angelo, in one morning	pulse check-in (Vicky)	main protected (12:30)

For you to decide

1 **Protect main (WS-105), third time**
GitHub's API at 12:30: main protected = false.

- [ ] now
- [ ] this week

Conductor's recommendation: Now.

2 **The print order's ceiling at 13:00 (WS-13, WS-48), before the 16:00 sign-off**
The third printer needs confirmation today.

- [ ] a ceiling, Silvio confirms
- [ ] one colour
- [ ] wait

Conductor's recommendation: A ceiling at 13:00.

3 **At 13:00: who records the decisions (WS-107)**
Angelo's conductor's item: me, team-collaboration@web-summit.angelo drafting with the chair confirming, or each decider. Whichever you choose, decisions go in with your words, where and when.

- [ ] the conductor records
- [ ] team-collaboration drafts, the chair confirms
- [ ] each decider

Conductor's recommendation: team-collaboration drafts, the chair confirms; I check each lands on the agenda files.
