WEB SUMMIT 2026 · VICKY'S CONDUCTOR BRIEF

Handover day: the new conductor starts at your "go"

14 November 2026, 08:45 UTC (since brief 9, 12 Nov 08:45 UTC; no brief on 13 Nov, the hold) · conductor@web-summit.vicky

1. Urgent / Risks

- None. No hold on either site, no edit to decisions.md but mine, no key changes, Gmail used only by your inbox agent, usage limit status "allowed".
- My session's context is at 795,000 of about 900,000 tokens before automatic compaction: a good day to hand over.

2. Actions & Replies for Vicky, by window

CONDUCTOR (THIS WINDOW)

Say go for the handover
Why: At your word I start the new conductor session only after your "go" (standing answer 61). Then the steps run back to back.

```
Conductor: go.
```

VAULT

Reseal vaults A and B for the new conductor (paste after the new session has made its key)
Why: The new conductor needs your agents' tools (A) and your ideas (B); vault@ checks the new key was added by its own commit, then commits the sealed files, so nothing needs pasting back.

```
vault@: reseal vault A (wyt9jdeo) and vault B (lhsdkd4x) from conductor-vicky-2 to conductor-vicky-3, after checking conductor-vicky-3 was added by the new conductor's own commit. Commit the sealed files for the new conductor.
```

INBOX

Hold the staged follow-up entries
Why: Your inbox agent asks which agent to seal its staged follow-up list entries to. Nothing can be added until Indi's agents reseal the list to inbox-vicky or add an "add a contact" option (your request of last night, no reply yet).

```
Inbox: keep the staged entries in your own window until Indi's agents add you to the follow-up list. Seal them to no one yet.
```

DINIS / STAND-UP

The interview vault request is still open
Why: Asked on 9 Nov, never answered; the summit is over. Close it unless you still want a place for interview recordings.

```
Conductor: close the interview vault request.
```

Overnight and this morning

- Researcher 07:15 and curator 07:35 ran on the five new themes (both say "applied SA58-THEMES" and "applied SA54-LEDGER"). Researcher: 2 captures (the EU's Digital Fairness Act explainer, Konecta's Lisbon centre). Curator: no new story yet (Konecta and the DFA already covered by S52 and S56); gaps sent to the researcher for themes 1 and 2 (follow-ups, the map of AI in Portugal). Next rounds 11:15 and 11:35.
- Dashboard 07:50 ran; your stories page is refreshed (55 stories).
- Nothing published overnight; no new drafts. Yesterday's tally: S61 (Humanos), S62 (why people trust AI summaries) and S63 (women learning and building AI in Portugal) live; Teamworks, Rio and Pavilion 4 back; 98 company pages cleaned of Web Summit sources; 27 images moved; 9 update notes rewritten.
- Ledger: 17 lines from five agents so far, all with generic titles.

Waiting on others

- Indi's agents: inbox-vicky on the follow-up list, or an add-a-contact option. No reply yet.
- correspondent@ (front page): the fringe instead of the agenda, a new lead (S63 suggested), the storm block off. No reply; the lead is still Thursday's guide.
- Dinis's conductor: Web Summit links in the company-page template and data. No reply.

Today, in order

- 1. You say go in this window. 2. I start the new conductor session (Opus, the Web Summit environment) with the start kit. 3. It makes its key conductor-vicky-3 and its 08:45 and 20:45 tasks; I check them in its commits. 4. You paste the reseal line in vault@'s window. 5. The new conductor opens both vaults and tells me. 6. I disable my two tasks, delete my vault keys and stop.
- Then the new conductor's first jobs: the rules cleanup (it shows you the new decisions.md first), then the three role changes with paste messages for you.
- Researcher and curator 11:15/11:35 and 15:15/15:35; checker 10:00; scout's first weekly note Sunday 18:47.

Checks

- decisions.md: all edits mine (standing answers 51 to 63 since brief 9). Keys: no changes. Holds: none. Gmail: inbox@ only (6 drafts kept, 0 sent). Follow-up drafts waiting: 6 (inbox, 13 Nov about 22:10 UTC).
- Schedule as restored on 13 Nov: researcher and curator three rounds, dashboard 07:50, checker 10:00, scout Sundays 18:47, my 08:45 and 20:45; everything else off or on demand.

Next

- Your "go", then the handover.
- 11:15 and 11:35 research and curation.
- Sunday 18:47 scout's weekly note.
